MD. MUSFIZUR RAHMAN (DIPRO)

FULL-STACK WEB DEVELOPER

Dhaka, Bangladesh | +880 1703-445395 | diprorahman2003@gmail.com
GitHub: github.com/diprorahman01 | LinkedIn: linkedin.com/in/diprorahman01/

PROFESSIONAL SUMMARY

Computer Science and Engineering student at United International University, pursuing a career in full-stack web development. Experienced through personal projects in building responsive web interfaces and working with React, Next.js, TypeScript, Node.js, APIs, authentication, and SQL/NoSQL databases. Interested in logical problem-solving, algorithm optimization, and creating practical applications.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6), TypeScript, React, Next.js, Tailwind CSS

Backend: Node.js, REST APIs, Next.js App Router, authentication, OAuth

Databases: SQL, NoSQL, MongoDB Atlas

Tools & Deployment: Git, GitHub, VS Code, Vercel, Netlify

SELECTED PROJECTS

BazarDor | Grocery price tracker

- Created a Bengali-language grocery price tracking interface that presents daily market prices, product categories, and price changes.
  Live: bazar-dor-five-phi.vercel.app | Code: github.com/diprorahman01/bazar-dor

FitLog | Workout planning application

- Built a workout library interface for browsing exercises and organizing exercises into personal workout plans.
  Live: fitlog-kappa-roan.vercel.app | Code: github.com/diprorahman01/fitlog

DevStack | Technology stack builder

- Developed an interactive interface to explore frontend, backend, database, and tooling options and assemble a development stack.
  Live: playful-vacherin-6d4004.netlify.app | Code: github.com/diprorahman01/DevStack

EDUCATION

United International University (UIU), Dhaka | B.Sc. in Computer Science and Engineering
10th semester | Expected graduation: 2027 | CGPA: 2.50 / 4.00

Dhaka City College | Higher Secondary Certificate (HSC)
Passed: 2021 | GPA: 5.00 / 5.00

PROFESSIONAL DEVELOPMENT

Programming Hero — AI-Driven Full Stack Web Engineering (currently enrolled)

INTERESTS

Competitive programming, mathematical algorithm optimization, Advent of Code challenges.
